**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Cantales (US 3900106). With respect to claim 1, Cantales discloses the following:

- Cup with frusto-conical wall
- A lid
- Recess in wall of cup
- Lid being positioned in recess (Fig. 1)

With respect to claim 2, Cantales discloses the lid being releasably retained in said recess, as shown in Fig. 3.

With respect to claims 3, 4, Cantales discloses a flexible tether (17) connecting the lid to the cup near the open end of the cup, wherein the tether (17) allows the lid to pivot with respect to the cup.

With respect to claims 5-7, Cantales discloses a tab on the lid, wherein the tab is the outer brim member on the lid (flange-like member).

With respect to claim 8, Cantales discloses the bottle being plastic (Col. 2, Line 1).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3-4, 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cantales in view of Tomer (US 5407098). With respect to claims 3 & 4, to the degree that the hinge (17) is not a "flexible tether," Cantales discloses the claimed invention except for the lid being connected to the cup via a flexible tether. Nonetheless, Tomer teaches a bottle and cap assembly wherein the lid is connected to the cup via a flexible tether, thereby providing a secure and flexible connection. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to connect the cap and bottle of Cantales with a flexible tether as taught by Tomer so as to provide a secure and flexible connection.

With respect to claim 7, Cantales discloses a tab on the cap.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
